

JABIL

Chihuahua, México

Established in 2000 and located 250 miles south of El Paso, Texas, with easy access to rail, seaports and airports, Jabil Chihuahua is ideally located to meet the manufacturing and supply chain requirements of Original Equipment Manufacturers (OEMs). Jabil Chihuahua has a highly-skilled workforce of over 4,000 employees producing millions of units per year. The Chihuahua facility supports customers in key industries that include:

- Automotive & Transportation
- Connected Home & Building
- Energy & Industrial
- Print
- Retail

As a strategic North America manufacturing site, Jabil Chihuahua boasts 1-million square feet of manufacturing capacity having emerged as a key lower-cost manufacturing location to meet both high volume/low mix and low mix/high volume requirements.

Jabil Chihuahua mitigates risk with 18 years of proven production for multi-million unit production programs with medium to high complexity.

Manufacturing Agility

The advantages of manufacturing in Mexico are vast, which is why the country has become one of the largest manufacturing economies in the world. Open trade and proximity to the United States are clear advantages. Additional advantages specific to Chihuahua, Mexico, include:

- Quality manufacturing talent at a globally competitive cost
- 18 years of experience with Automotive Industry Action Group (AIAG) standards
- Strong government relationships to provide best-in-class customs and duty services
- Centralized location to meet global delivery requirements

These advantages make Jabil Chihuahua an attractive lower-cost manufacturing location to meet both high-volume/low-mix and low-mix/high volume requirements.

Chihuahua, México
