

Welcome to **BLUE SKY** Innovation Center - Tortosa

Where Dreams Take Flight!

From igniting ideas, curiosity and collaboration to tackling tough innovation challenges in a thought provoking environment, Jabil Blue Sky Innovation Center - Tortosa is more than a facility — it is an experience. It elevates engagement with our customers, partners, prospects and existing employees and the industry overall and it showcases Jabil's far-reaching capabilities in everything from acoustics to optics and automation to innovation. And, it brings a powerful emphasis on one of the fastest growing and most diverse businesses in the Jabil Portfolio – Packaging! Some of the world's leading minds in engineering, science, and precision packaging leverage the powerful, global resources of Blue Sky to elevate ideas beyond expectations.

Jabil's 5,600m² Blue Sky facility demonstrates Jabil and Jabil Packaging Solutions' commitment to growing its European footprint, and building strategic and collaborative relationships with its brand customers in the consumer packaged goods, food & beverage, consumer health and industrial/professional market segments.

The Jabil Blue Sky Innovation Center - Tortosa is a jewel in the crown of the Jabil global footprint, housing tremendous capabilities and value:

- A state-of-the-art Customer Engagement Center, showroom and projection experience highlighting Packaging trends and the precision packaging journey
- The first and only Jabil InControl™ Tower in Europe, driving world-class Intelligent Digital -Supply Chain analytics, risk mitigation and decision support
- A leading-edge lab for project development and mold design and construction
- A testing zone for prototype development designed to drive speed-to-market
- Classrooms for learning and coursework for advanced plastics education
- A new warehouse offering 2,000m² of additional space for injection molding
- New 1,600m² molds and matrices production center

Visitors to Blue Sky will experience the product design to delivery evolution, including:
