

## JABIL ACOUSTICS

OVERCOME CHALLENGES

Your audio products' QUALITY IS INCONSISTENT

It's HARD TO INTEGRATE HIGH OUALITY audio into your product

You need to reduce the EXTRANEOUS NOISE from your product

Increase your brand reputation with highest quality audio output and performance by utilizing our expertise, tools and lab facilities.

Lower overall production cost from less rework and waste with our test fixtures, complementary capability expertise in automation, process innovation and quality

Reduced risk in the market by pairing acoustics with our complementary capability expertise in precision mechanics and materials technology

## Jabil SOLUTIONS

You can ensure that every product off the line has consistent, high quality audio 🧼 through our Acoustic Lab, through complimentary capability expertise in Acoustics, Automation, Process Innovation & Quality

You can ensure product noise reduction through complimentary capability expertise in Acoustics, Precision Mechanics, and Materials Technology.

You can add high quality audio to your product acoustic test features, and simulation software.

## INDUSTRY TRENDS

Environmental impact. Focusing material sources, waste, recycling, and product cycles

New technologies are changing the way products are being manufactured

Increase focus on visual appeal in addition to funtion

Automation is creating cheaper labor solutions and more precise application
