

OVERCOME CHALLENGES

It is **HARD TO MANAGE SOURCING** with component and capabilities coming from multiple places

Your **SUPPLY CHAIN IS DISPARATE AND COMPLEX**, resulting in siloed phases of product development

Your **SEARCH FOR THE BEST**, most reliable suppliers for each step of the manufacturing cycle

You consistently **RELY ON THE ABILITIES OF YOUR PARTNERS** to get the job done in a timely manner

Experience with adhesives, conformal coatings, encapsulants, sealants, and potting compounds.

Over 390 adhesive applications have been discovered across 7 different Jabil sites

Get to the market faster by utilizing our experience with adhesives and adhesives process development

Higher quality products mean increased brand reputation and increased customer satisfaction

Increase your share of market by creating innovative products with features like waterproofing

Jabil SOLUTIONS

- Ensure you are selecting the best adhesives material for your application
- Utilize complementary capabilities in automation, equipment selection, and printed electronics for your product
- Apply our experience in adhesive process development to your product
- Choose the best adhesive for each product application
- Automate adhesives application in your assembly process
- Securely attach discrete electronic components to flexible or bendable electronics
- Develop a process to ensure your electronic assemblies are waterproof and dustproof

INDUSTRY TRENDS

- ✓ Environmental impact. Focusing on material sources, waste, recycling, and product cycles
- ✓ New technologies are changing the way products are being manufactured
- ✓ Increase focus on visual appeal in addition to function
- ✓ Automation is creating cheaper labor solutions and more precise application
