**JABIL ADDITIVE MANUFACTURING NETWORK**

Our unique cloud network fuels a growing footprint of 3D printers and additive manufacturing capabilities to move manufacturing workloads to the most ideal geographic markets with speed and agility.

**Agility:**
- Design in one location
- Manufacture in many

**Customize:**
- Personalize to meet growing demand—economy needs

**Design for Additive Manufacturing**
- Qualification & Certification
- CRM
- PLM

**Validation**
- Compliance: Design and certify with rigor
- Speed: Improve time-to-market

**Production Management**
- Distribution: Improve efficiency and local manufacturing
- Delivery: Reduce costs through part consolidation and local manufacturing

**Cost:**
- Reduce costs through part consolidation and local manufacturing

**Compliance:**
- Qualify and certify with rigor

**Benefits:**
- Agility: Design in one location, manufacture in many
- Speed: Improve time-to-market
- Cost: Reduce costs through part consolidation and local manufacturing
- Quality: Personalize to meet growing demand—economy needs
- Compliance: Design and certify with rigor
