
At Jabil Green Point we simplify design, process development and manufacturing complexities for our customers. We offer full product realization capabilities and provide a comprehensive set of engineering and industrialization services. We are uniquely positioned to deliver consumer electronics on time, at scale and with the highest degree of quality.

**OUR STRENGTH & SCALE**

- 180K+ DEDICATED EMPLOYEES
- 100+ LOCATIONS IN 29 COUNTRIES
- 25,000 SUPPLIERS
- 1,600 CAPABILITIES
- 250 TOP BRANDS
- 50 YEARS OF EXPERIENCE
- $19B REVENUE
- $1.2B OPERATING CASH FLOW

**OUR STRATEGIC CAPABILITIES**

- VALUE ENGINEERING
- MATERIALS TECHNOLOGY
- PRECISION MECHANICS
- AUTOMATION
- DIGITAL PROTOTYPING
- OPTICS
- FLUIDICS
- ROBOTICS
- E-TEXTILES
- OPTICAL NETWORKING
- WIRELESS CONNECTIVITY
- CLOUD SYSTEMS INTEGRATION
- GROWTH STRATEGY
- PRECISION TOOLING
- ADVANCED ASSEMBLY & MINIATURIZATION
- DYNAMIC TUNING
- EXPERIENCE DESIGN
- ACOUSTICS
- ADHESIVES
- DRONES
- SENSORS
- PRINTED ELECTRONICS
- POWER ELECTRONICS
- 50 YEARS OF EXPERIENCE

Fabrication & Assembly

DELIVER
Configure to Order & After Market

CREATING COMPETITIVE ADVANTAGES FOR OUR CUSTOMERS IN EVERY LINK OF THE VALUE CHAIN

PRODUCT IDEATION & CREATION
Collaborating on meaningful design and innovation that spans cultures, technologies and markets

SUSTAINABILITY
Ensuring our operations all over the world are meeting high standards while we help our customers stay on the cutting edge of green technology and product design

MANUFACTURING
Producing innovative products securely and in a timely fashion through a collective expertise across a wide array of initiatives

PRODUCT DESIGN & DEVELOPMENT
Optimizing and digitizing designs to help customers achieve faster time-to-market with next gen products that win

INDUSTRIALIZATION
Accelerating innovation through disruptive technologies that address the largest global trends and markets

SUPPLY CHAIN
Providing actionable supply chain data that drives innovation, creates opportunities, reduces risk, optimizes cost, and delivers visibility
INTEGRATED SUPPLY CHAIN FOR THE DIGITAL ECONOMY

END-TO-END VISIBILITY, INTELLIGENCE & EXECUTION

SPEED, FLEXIBILITY & SCALABILITY
- Enhanced responsiveness
- Postponement
- Maximum efficiency on a global footprint
- NPI to legacy

RISK MANAGEMENT
- Alerts and notifications
- Actionable insights
- Proactive prevention
- Supply continuity

TOOLS
- Workflow design and management
- Network design
- Performance benchmarking
- End-to-end visibility

GLOBAL INTELLIGENCE
Global knowledge base:
- Markets and technology
- Procurement intelligence platform
- Product lifecycle management

OPERATIONAL EXPERTISE
- Physical supply chain management
- Domain expertise
- Logistics optimization
- Professional procurement
- Supplier relationship management

PROCUREMENT INTELLIGENCE
- 360 degree intelligence across markets, applications, technologies and geographies
- Daily market insights
- Strategic technology and supplier expertise for cost model and leadership benchmarking

JABIL InCONTROL™
- Data analytics for optimized visibility into supply chain design, control and management
- Designed for maximum flexibility and efficiency

COMMON CHALLENGES OF OUR INCREASINGLY COMPLEX WORLD:
- Single sites can rarely deliver every capability we need
- Geographically dispersed teams and capabilities
- Rapidly changing customer needs and expectations
- Extreme time-to-market pressures

SYSTEMATIC PROGRAM MANAGEMENT PROVIDES A FRAMEWORK TO ADDRESS THIS COMPLEXITY:
- Greatly increases situational awareness
- Increase decisions velocity
- Removes organizational ambiguity

EFFECTIVE PROGRAM MANAGEMENT IS THE KEY ENABLER OF SUCCESSFUL PRODUCT DEVELOPMENT.
OVER 100 SITES IN 29 COUNTRIES
