

Strategic Supplier Network

Gain access to our global network of best-in-class suppliers

Gain the upper hand with access to Jabil’s robust supply chain solutions and our extensive network, enabling you to deliver the most robust scalable solutions with a lower total cost of ownership. With over 36,000 vetted suppliers leveraging a \$30 billion annual purchasing spend across multiple sectors, Jabil delivers access to industry leading suppliers across all disciplines including but not limited to materials, injection molding, processing, and automation. Our global network of over 3,000 experts manages sourcing, procurement, and logistics to deliver strategic, orchestrated supply chain solutions that help you meet your objectives. Our executive-level relationships across this supplier network allow us to find superior pricing, lead times, and an assurance of supply for your products.

BEST-IN-CLASS SUPPLIERS

Jabil has developed and fosters a global network of quality suppliers across the multiple business sectors we serve. We offer the critical advantage of access to best-in-class suppliers of materials, processing, and automation at a lower total cost of ownership. Our executive-level relationships across this supplier network allow us to find superior pricing, lead times, and an assurance of supply.

OPTIMIZE YOUR NETWORK

For over 60 years, Jabil has strategized and optimized global supply chains for our manufacturing customers. This support enables you to stay focused on your core objectives and competition while we manage all aspects of the supply chain. Built on proven infrastructure, personnel, and technology, we’ll create and manage your supply chain to be resilient, cost-effective, and simplified – helping you meet your financial and operational goals. You’ll have access to a dedicated customer command center with near real-time dashboards providing end-to-end visibility for total supply chain orchestration while understanding the regulatory framework within which our pharma partners must operate.

Setting up the optimal strategy for procurement, supply chain, and logistics helps mitigate risk and keeps your product moving forward. Jabil will work with you to forecast the most advantageous components and suppliers, map out optimal logistics planning, and monitor your supply chain in near real time.

PROACTIVE OPTIMIZATION

Our world-class systems, tools, and expertise can proactively identify and assess potential risks which we then mitigate through strategic collaboration. Our evidence-based forecasting helps you select the optimal suppliers, geographies, and logistics for your product. Jabil knows that building a better, more resilient supply chain requires continuous improvement of processes, people, and technology within a strict regulatory framework. Your products also benefit from our experience as a manufacturing partner to leading brands across multiple industries. You will reap the rewards of our lessons learned, innovation, and experience in faster-moving industries.

WHY CHOOSE JABIL

BEST-IN-CLASS SUPPLIERS ACROSS MULTIPLE DISCIPLINES AND REGIONS

BOTH GLOBAL EXPERTISE AND LOCAL KNOW-HOW AROUND THE WORLD

\$30 BILLION DOLLAR SPEND AND 36,000+ SUPPLIERS
