

Jabil Cutting Tools

Providing Precision Tools for Today's Most Demanding and Complicated Designs

As manufacturing technologies continue to improve and become more precise, the demand for consistent quality in manufactured products has paved the way for more advanced innovations. For decades, CNC machinery has been used in advanced manufacturing processes—their effectiveness only limited by their cutting tools. Jabil Green Point offers advanced CNC cutter solutions by specializing in the development of carbide cutting tools for precision cutting in many key markets

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Donec ut tellus vitae enim luctus mollis. Phasellus imperdiet ornare neque vel gravida. Sed malesuada quam orci, et euismod lectus tristique at. Curabitur semper massa ut neque tempor, volutpat semper lacus imperdiet. Donec sit amet ultricies sem. Jabil CNC Cutter Solutions

Jabil Green Point's CNC cutter capabilities range from tooling technology to manufacturing and supply chain management. We help customers design, build, and bring innovative products to the market faster, more efficiently, and with greater affordability.

Equipped with 54 sets of precision grinding machines and high-tech measurement machines, Jabil Green Point is dedicated to supplying high performance ratio cutters to customers worldwide. We offer design, manufacturing solutions and sales of mold cutters, aluminum, stainless-steel and other hard metal cutters with precision from 20 millimeters to 0.1 millimeters. Jabil Green Point cutters are competitively priced and tested to be more reliable and longer lasting than our competitors.

Machining Materials

- Titanium
- Nickel alloy
- Hardened steel (HRC 52 and up)
- Soft steel (NAK80)
- Aluminum
- Stainless steel

Cutter Types

- Standard
- Radius, Micro, and Square
- Form
- Drill

System Control

- Design Navigate System
- Mold Production Management System
- Mold Enterprise Resource Planning

Certificates and Registrations

- ISO14001
- OHSAS18001
- ISO50001

About Jabil

Jabil's unique combination of global expertise, ingenuity, analytics and financial performance has contributed to the success of the world's most well known brands. We help companies design, build and take their products to market quickly, affordably and efficiently. But more than that, Jabil helps customers intelligently design their supply chains to be agile, economical and effective even in uncertain times.

We provide supply chain services to some of the world's most respected and trusted brands in a broad range of industries, including automotive, clean technology, computing, consumer, industrial, instrumentation, healthcare, networking, peripherals, storage and telecommunications.
