# XFP AGC EDFA

### DESCRIPTION

The Jabil Photonics XFP form factor EDFA is a pluggable EDFA product designed for single channel or full C-band 40/80/96 channels DWDM amplification in Telecom, Datacom or CATV applications. It is designed to be compatible with XFP MSA (INF-8077i) on mechanical and electrical interface, which allow it be plug-and-play in XFP cage.

The XFP EDFA supports the working mode of AGC and can monitor the input and output optical power in real time. Supports real-time input/output LOS alarm, pump protection and online firmware upgrade.
