GLOBAL EXPERTISE
SIMPLIFYING COMPLEXITY

JABIL

Jabil is an excited participant and enabler for our customers to achieve leadership and financial success in the exploding growth of the solid state lighting market.

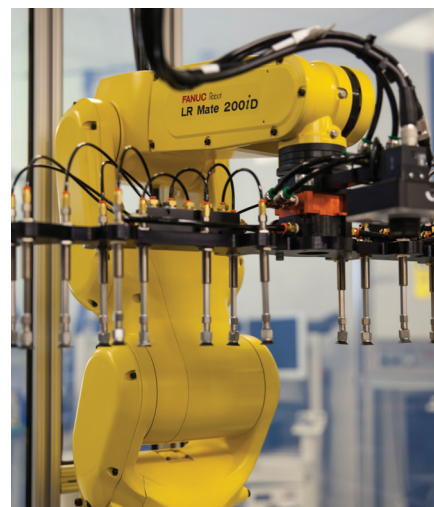

Jabil's unique insight into both mature and emerging markets allows us to utilize best practices in the design of fully integrated solutions for our LED lighting customers.

The Jabil Difference

Jabil's breadth and depth of capabilities, investments in leading technologies, customer-dedicated teams, and familiarity with regional variances in operations have contributed to the success of some of the world's best brands in a broad array of industries.

About Jabil

Jabil's unique combination of global expertise, ingenuity, analytics and financial performance has contributed to the success of the world's most well-known brands. We help companies design, build and take their products to market quickly, affordably and efficiently. But more than that, Jabil helps customers intelligently design their supply chains to be agile, economical and effective even in uncertain times.

We provide supply chain services to some of the world's most respected and trusted brands in a broad range of industries, including defense, aerospace, automotive, clean technology, computing, consumer, industrial, instrumentation, healthcare, networking, peripherals, storage and telecommunications.

Integrated Services

Integrated services make Jabil the preferred partner in fast-moving sectors. Jabil's Services include:

- Design (Electrical, Mechanical and Optical)
- Value Engineering (Cost and Manufacturability)
- Tooling (design, sourcing and management)
- Supply Chain Design and Optimization
- Manufacturing
- Build to Order/Configure to Order/Direct Customer Fulfillment
- Repair and Reverse Logistics

Differentiation in Energy Efficient Solid State Lighting

- Diversified customer and technology base provide cross-market best practices
- Expertise in Materials Technology and Optics
- Extensive lighting experience
- Proven world-class operations to accelerate new product introduction and exceeding our customer's expectations

Investments and Ingenuity

- Partnering with a Fortune 200 company means long-term financial strength and stability
- A global presence and capabilities to provide our customers localized tailored solutions
- Optics, electronics, precision molding processes result in unique component solutions for our customers

Intelligent supply chain design

Expertly designed supply chain network that can anticipate multi-variable changes which ensure:

- Lowest risk
- Lowest Landed Cost
- Lowest Total Cost of Ownership

Working with Jabil

- Investment grade US Public Company
- Successful Track Record
- Over 60 facilities operating in 22 countries
- 160,000 Employees
- Global Quality Systems
- Corporate Responsibility to Environmental, Health and Safety, Human Resource development, Ethics

Lighting Capabilities

- Over ten years of lighting experience
- Electronic Lighting Ballasts (>20 Million sold)
- LED Lighting Drivers
- LED Retrofit Lamps (>7 Million Sold)
- Commercial LED Retrofit Products
- Thermoplastic development for low cost/light weight heat sinks
- Unique molding capabilities to innovate lenses, diffusers, reflectors and heat sinks
