

# Welcome to **BLUE SKY** Italy

Empowering People, Products and Potential

From igniting ideas, curiosity and collaboration, to tackling tough innovation challenges in a thought-provoking environment, Jabil Blue Sky Italy is more than a facility - it is an experience. It elevates engagement with customers, partners, prospects and employees, and the industry overall. It showcases our far-reaching capabilities, driving collaboration at the speed of digital.

In an environment of rapid change, Jabil Blue Sky Innovation Centers help our customers engineer growth and establish market leadership. Jabil Blue Sky Italy leverages collaborative spaces for creating, cultivating, and incubating new ideas, from the initial vision and prototyping all the way through to global manufacturing. Strategically situated in a key industrial area in Marcyanise, the 3.500 m<sup>2</sup> facility demonstrates Jabil's commitment to growing its European footprint and building strategic, collaborative relationships with its customers, partners, prospects and employees. Industries supported include defense, automotive, clean technology, computing, consumer, industrial, instrumentation, networking, peripherals, storage and telecommunications.
