

Packaging Solutions Suite

Brands and retailers trust Jabil Packaging Solutions to solve the most complex rigid packaging manufacturing challenges.

Our customers benefit from intelligent rigid packaging solutions based on market research that bring us closer to what consumers want. More importantly, what they need. By understanding consumer behaviors, we are able to innovate more creative solutions that keep our customer packaging ahead of trends.

Customers are able to leverage our design, engineering and manufacturing excellence, as we approach each unique challenge together. The result? We bring exciting, new packaging concepts to market quickly and efficiently.

Our Packaging Solutions Suite enables food and beverage, personal care and home care brands and retailers to win on the shelf and online. Purposeful innovation, advanced conversion capabilities and best-in-class manufacturing practices are just some of the drivers that enable us to co-develop game-changing rigid packaging for our customers.

The most technologically advanced and trusted manufacturing solutions provider in packaging.

Customers are able to leverage our design, engineering and manufacturing excellence, as we approach each unique challenge together. The result? We bring exciting, new packaging concepts to market quickly and efficiently.

The Jabil Packaging Difference

SUSTAINABLE DESIGN EXPERTISE

Our design team possesses more than 100 years of packaging experience. This gives us a unique perspective in assessing customer challenges and developing innovative design solutions. In addition, we have unparalleled access to a great breadth and depth of marketplace insights. This thorough understanding of markets and trends enables us to help customers design innovative, sustainable solutions that meet their goals, disrupt the market, and appeal to consumers.

DISCOVER. DESIGN.

- Research & Insight
- Conceptual Engineering

- UX/UI
- Industrial Design
- Human Factors

DEVELOP. DELIVER.

- Low Volume Build
- Compliance
- Qualification & Testing
- Mechanical Design
- Scale Up
- Electrical Design

A HOLISTIC APPROACH TO SUSTAINABILITY

Our holistic approach to packaging considers every element through the entire product life cycle. The JPS sustainable packaging services framework reduces the risk and complexity of a new format launch, while improving time-to-market. Our internal design teams, packaging assessment processes and global material sourcing network make us uniquely qualified to work on your project.

OUR SERVICES FRAMEWORK

Design for Sustainability

Design new packaging formats or modify existing products.

Sustainable Packaging Assessment

Assess and validate to ensure an optimal end-of-life result.

Sourcing & Development

Determine the best sustainable materials for your package and source them intelligently.

SUPERIOR ENGINEERING SOLUTIONS

Advanced conversion technologies, deep expertise in automation and unique capabilities in assembly and filling allow us to solve the most complex manufacturing challenges for our customers.

We bring packaging to market at the speed of consumer electronics by combining our high volume, high precision mold design and construction capabilities with the real-world application experience of our engineers.

LEADERS IN CONVERSION TECHNOLOGY

- Advanced Tool Building
- Packaging Development Speed
- Complex Molding Solutions
- Materials Expertise

EXPERTS IN AUTOMATION

- Custom Automation Solutions
- Prototyping Systems for Rapid Product Development
- High Speed Vision Inspection
- Automation Project Management
- Global Network of Partners

LEADERS IN ASSEMBLY & FILLING

- Complex Plastic & Device Assemblies
- Manual & Fully Automated Assembly
- Custom, Modular Assembly Automation
- In-Line & Finished Packaging Filling
